

Room S228 (Sievers Room)

To reserve this room, please visit <https://seec.colorado.edu/calendar>

AV Connections

Cables are located in the two large floor boxes, the Front Floor Box (closest to TVs) and the Rear Floor Box (closest to windows). Inside the boxes there are HDMI, VGA, and USB cables. Connect either the HDMI or VGA cable to your laptop for video/audio. If using the conference camera, also connect the USB cable.

Video and Audio

Once connections have been completed, use the touch panel to pair the input with the TVs. First, touch the input location (front floor box or rear floor box), then touch the TV screen location (left or right). The input selection, Laptop 1 or Laptop 2, will appear over top of the TV icon. Laptop 1 = Front Floor Box and Laptop 2 = Rear Floor Box. It may take a few seconds for your video to display. Note – the touch panel controller can be moved and connected to either floor box.

There is a known issue with Windows 10 that prevents laptops from transmitting audio to the wall speakers. If you do not see the room audio output in your audio devices selections, reboot your laptop with AV cables connected. You should then be able to select the room audio output.

Conference Camera

The camera is located on the wall to the right of the TVs. Control the camera (pan, tilt, zoom) using the touch panel. Touch the video input icon on the bottom row and controls will appear. If you want to see what the camera is capturing, touch the video input icon and then touch one of the TV icons. *NOTE – audio will not be transmitted to the wall speakers when the camera image is displayed on the TVs.*

Telephone (303-735-4606)

The cable for the telephone is located in the northeast floor box (small box closest to touch panel). Find the phone and plug the cable into the leftmost jack on the back of the phone.

Troubleshooting

To report a problem or request assistance with AV equipment in this room, please email seecit@colorado.edu.

When finished, please coil/return cables to the floor box.

Thank you!
